COMBINATION WRENCHES AND SETS OF THEM

The most widespread and popular type of a wrench combining open-end and ring-end characteristics in a design. Use of two one-dimensional profiles does the tool universal in use. Wrenches are made of the alloyed chrome-vanadium steel according to the DIN 3113 standard.

Combination wrenches

DOUBLE END FLARE NUT WRENCHES AND SETS OF THEM

Combine in their design the ability to transmit high loads, like a ring end wrench, with the convenience of open end wrench. Flare nut wrenches are used primarily for maintenance of pipe fittings, when the use of an open-end wrench can damage a joint, and it is not possible to apply a ring end wrench or flank socket. The tools are made of vanadium steel according to DIN 3118.

ADJUSTABLE WRENCHES

The range of adjustable Thorvik wrenches includes seven standard sizes providing service of joint elements in the big range. Tools are manufactured of alloyed high-quality chrome-vanadium steel according to the DIN 3117 standard. Thorvik adjustable wrenches are supplied with exact details of mechanism of jaws that provides the minimum working gaps and smooth adjustment. Products have a protective phosphate coating with a metric dimensional scale.

Technological stages for the production of THORVIK® wrenches:

- STAGE №1 - Cutting of primary preform
- STAGE №2 - Forging and pressing processing (hot stamp)
- STAGE №3 - Felling
- STAGE №4 - Primary formation of working surfaces
- STAGE №5 - Formation of working surfaces (broaching) + primary polishing
- STAGE №6 - Marking. Heat treatment
- STAGE №7 - Vibration-abrasive polishing. Grinding
- STAGE №8 - Electroplating

PIPE WRENCHES

Pipe wrenches are universal tools. Thanks to a special design of gripping allow to serve not only round details, but also the profiled threaded fasteners.

F-type with jaws under 90°

Induction hardened to high hardness jaws with an angle of inclination of the teeth, which allows you to achieve the maximum possible grip force.

S-shaped jaws allow servicing of pipes and fasteners of various profiles.

The tools are made of alloy chrome-vanadium steel, according to standards 5234 (Form A, C).

The location of the jaws at an angle of 45° fits in hard working areas

Matte protective coating prevents the appearance of chips on the tool body

Sockets

THORVIK® sockets are manufactured using technologies that allow the transfer of forces exceeding modern standards by 30%. A wide range of sizes, types and profiles, high precision machining, high-quality chrome-vanadium steel and a steady chrome-nickel coating make the tool reliable and durable. The THORVIK® sockets are the basis for creating fitting-assembling tools. Products are made on modern equipment according to DIN 3124.

INFO

THORVIK® «MULTIPROF»

The revolutionary THORVIK® "MultiProf" system of bench-mounting tools is able to save the user from the need to purchase a large number of tools. One THORVIK® "MultiProf" nominal socket size is suitable for eight different profiles and is used for nuts and bolt heads of 6 and 12-point metric sizes, 6 and 12-point inch sizes, external TORX®, SPLINE bolts, and fasteners of three and four-points. The THORVIK® "MultiProf" system is also able to work with damaged (rounded to 30%) fasteners. The contact spot with the fasteners is distributed over a larger area, in contrast to the standard profile, which has point contact spots. The THORVIK® "MultiProf" system of bench-mounting tools has a wide range of applications: it is recommended for use in industrial plants with a high load of intensity, the organization of maintenance of aviation, automotive, agricultural, household appliances, etc.

Handles, Universal Joints, Ratchets

Auxiliary tool that is used to transfer torque to the flank socket. It is part of fitting-assembling tools. The range of THORVIK® drives is represented by products that are diverse in scope, design and technology, and includes various joints, extenders, ratchet handles and adapters. Tools of this group will satisfy the needs of the user, both in ease of use and strength and reliability characteristics of products.

Ratchet handle with 48 teeth of the ratchet wheel are made of chrome-molybdenum steel, hardened to 48-52 HRC

Comfortable flag switch

Matt chrome-nickel coating reliably protects the tool body

Chrome-vanadium alloyed steel

A two-component handle with a soft coating that ensures reliable placing of the tool even with a moist or dirty hand

Cr-V Chrome-vanadium steel

Screwdrivers

THORVIK® screwdrivers are manufactured in accordance with the requirements of DIN 5262 standard. Products are completed with high-quality rods made of chrome-vanadium steel. Magnetized working edge of the screwdrivers are able to hold the fasteners, which very often helps in hard working areas. Ergonomic two-component handles are comfortable. We offer several types of THORVIK® screwdrivers that are used to work with threaded fasteners with internal working profiles: Slot, Phillips®, Pozidriv®.

By design, the screwdrivers can be divided into tools:

1. With concealed installation of the rod in the handle.
2. Screwdrivers with go-thru installation of the rod, which having a steel back plate and a sixsided power amplifier.
3. Insulated screwdrivers.

Pliers

A group of hand tools used for fixing objects, cutting, bending materials. THORVIK® pliers are characterized by high quality. Products are made from alloyed steel, have work surfaces quenched to high hardness and a chrome-plated joint element, which ensures their long service life. The tools are equipped with two-component ergonomic handles, meet all modern technical standards.

Induction hardened to high hardness working surfaces (HRC 52)

The chrome plated connecting element of the tool provides the long term of its operation

The tool is made of high alloy steel

The tool is manufactured according to DIN 5746.

Two-piece ergonomic handle covers for comfortable grip

SLEDGEHAMMER

More powerful than a hammer, impact tool. It is used in cases when the mass of the hammer is not enough. Thorvik offers bench sledgehammers with short handles, which are used for disassembling units, cutting metals, etc., that is, if you need a strong but precise blow, and tools with handles of increased length, for destructive impact. Thorvik sledgehammers are made of steel, supplied with handles of wood or of fiberglass-based composite. Work surfaces hardened to 45 HRC.

| Free speed (RPM) | 1800 RPM | | | |
| Recommended maximum air pressure | 6,3 Bar | | | |
| Average air consumption CFM | 141 l/min | | | |
| Air hose size | 10 mm | | | |
| Air inlet size | 1/4"DR | | | |
| Overall size (length) | 193 mm | | | |
| Clutch mechanism | Planetary | | | |

Spare parts and repair kits are available for this product:

The rotor blades of the engine wrench RAD1018
Code: 0522180; Item No.: RKS11018

Satellites of a planetary reducer of a drill of RAD1018
Code: 0522190; Item No.: RKS21018

Three-jaw chuck, self-locking, with key, for RAD1018
Code: 0522200; Item No.: RKS31018

Air straight drill

Item No.: SAD2500

| Code | Item No. | kg | pcs | kg |
|----------------------------------|--------------|----|-------|-------|
| 0526540 | SAD2500 | 1 | 20,00 | 20,49 |
| Specifications: | | | | |
| Chuck size, working range | 1-10 mm | | | |
| Free speed (RPM) | 2500 RPM | | | |
| Recommended maximum air pressure | 6,3 Bar | | | |
| Average air consumption CFM | 198 l/min | | | |
| Air hose size | 10 mm | | | |
| Air inlet size | 1/4"DR | | | |
| Overall size (length) | 225 mm | | | |
| Clutch mechanism | Planetary | | | |
| Exhaust direction | Rear exhaust | | | |

Air angle drill

Item No.: AAD1500

| Code | Item No. | kg | pcs | kg |
|----------------------------------|--------------|------|-----|-------|
| 0526400 | AAD1500 | 0,72 | 30 | 22,05 |
| Specifications: | | | | |
| Chuck size, working range | 1-10 mm | | | |
| Free speed (RPM) | 15000 RPM | | | |
| Recommended maximum air pressure | 6,3 Bar | | | |
| Average air consumption CFM | 113 l/min | | | |
| Air hose size | 10 mm | | | |
| Air inlet size | 1/4"DR | | | |
| Overall size (length) | 170 mm | | | |
| Clutch mechanism | Planetary | | | |
| Exhaust direction | Rear exhaust | | | |

Also, the range of TM THORVIK has a large selection of drills, which you can find on pages 85-88 of this catalog.

AIR DIE GRINDERS

Air die grinder

Item No.: ADG6022

| Code | Item No. | kg | pcs | kg |
|----------------------------------|---------------|------|-----|----|
| 0522030 | ADG6022 | 0,69 | 30 | 24 |
| Specifications: | | | | |
| Размер цанги | 6 mm | | | |
| Free speed (RPM) | 22000 RPM | | | |
| Recommended maximum air pressure | 6,3 Bar | | | |
| Average air consumption CFM | 198 l/min | | | |
| Air hose size | 10 mm | | | |
| Air inlet size | 1/4"DR | | | |
| Overall size (LxWxH) | 168x62,8x40,5 | | | |

Spare parts and repair kits are available for this product:

The rotor blades of the engine wrench ADG6022
Code: 0522210; Item No.: RKS16022

Extension air die grinder

Item No.: EADG6020

| Code | Item No. | kg | pcs | kg |

| Grinding wheel diametr, Max | 125 mm | | | |
| Spindle thread | 22 mm | | | |
| Free speed (RPM) | 10000 RPM | | | |
| Recommended maximum air pressure | 6,3 Bar | | | |
| Average air consumption CFM | 169 l/min | | | |
| Air hose size | 10 mm | | | |
| Air inlet size | 1/4"DR | | | |
| Overall size (length) | 228 mm | | | |

Grinding pneumatic orbital machine with dust extraction

Item No.: AOS6105

| Code | Item No. | kg | pcs | kg |
|----------------------------------|-----------|-----|-------|-------|
| 0526480 | AOS6105 | 1,5 | 10,00 | 15,92 |
| Specifications: | | | | |
| Disk diametr | 150 mm | | | |
| Free speed (RPM) | 10500 RPM | | | |
| Recommended maximum air pressure | 6,3 Bar | | | |
| Average air consumption CFM | 84 l/min | | | |
| Eccentricity | 5 mm | | | |
| Air hose size | 10 mm | | | |
| Air inlet size | 1/4"DR | | | |
| Overall size (length) | 214 mm | | | |

Also, the assortment of TM Thorvik has a large selection of cutting, flap and grinding discs, which you can find on the page 83 of this catalog.

AIR HAMMERS

Pneumatic hammer with nozzles in a set

Item No.: AHK9150

| Code | Item No. | kg | pcs | kg |
|----------------------------------|----------------|------|------|-------|
| 0526470 | AHK9150 | 2,15 | 8,00 | 17,96 |
| Specifications: | | | | |
| Spindle thread | 10,2 mm | | | |
| Blow per minute | 4500 | | | |
| Recommended maximum air pressure | 6,3 Bar | | | |
| Average air consumption CFM | 113 l/min | | | |
| Air hose size | 10 mm | | | |
| Air inlet size | 1/4"DR | | | |
| Overall size (length) | 150 mm | | | |
| Weight of the air hammer | 1,45 kg | | | |
| Overall size (lxWxH) | 460x320x290 mm | | | |
| Weight of the kit | 2,05 kg | | | |

Automotive tools

TM THORVIK® automotive tool designed for maintenance and repair of all types of vehicles. It is used in work with a variety of units and assemblies of motor vehicles and agricultural equipment, including in hard working areas. TM THORVIK® automotive tool allows you to perform maintenance independently, without contacting specialized centers. Many types of repair work on vehicles that previously presented a great deal of complexity and took a lot of time have become more accessible and easier, both for the professional and for the amateur thanks to the TM THORVIK® automotive tool line.

Multifunction puller with bolt clamps in a set. Range of captures is 30-120 mm, 13 pcs.

| Code | Item No. | Working range, mm |
|---------|----------|-------------------|
| 0523290 | AHBPS13 | 30-120 |

Content (13 pcs):
 Traverse large for a range of 30-120 mm;
 Spindle screw, 125 mm;
 Bolts, thread 1/4"x50mm, 3 pcs;
 Bolts, thread 1/4"x75mm, 2 pcs;
 Bolts, thread 5/16"x50mm, 3 pcs;
 Bolts, thread 5/16"x100mm, 2 pcs;
 Support screw;
 Plastic case.

Threading steps

1 Drilling. Hole preparation.
 Drill a hole of the appropriate diameter to remove damaged threads and prepare for threading. Follow the manufacturer's recommendations and the data in DIN8140.

2 Threading.
 Thread EG standard with STI specialized tap. Follow the manufacturer's recommendations and the data in DIN8140.

3 Mounting the insert on the handle holder.
 Place the threaded insert on the handle holder. Use the adjusting ring to limit the working depth. The insert collar must be installed in the groove of the tool.

4 Installing the insert.
 Install the threaded insert into the prepared hole.

5 Removing the driver.
 Remove the driver of the threaded insert. Use a demolition jig.

Caliper wind back tool set, 7 pcs

| Code | Item No. |
|--|----------|
| 0532330 | ABCRT2 |
| Content, (7 pcs): | |
| Lead screw with handle, left and right screw direction | |
| Bushing for lead screw right thread | |
| Bushing for lead screw left thread | |
| Thrust plate | |
| Basic head | |
| Head with two guides adjustable in width | |
| Head with three guides adjustable in width | |
| Plastic case | |

Caliper wind back tool with pneumatic drive in a set, 16 pcs

| Code | Item No. |
|---------|----------|
| 0532320 | ACPTK16P |

| Content (16 pcs): | |
|--------------------------|--|
| 0 | Ø 60 mm, with flange connection and one guide, for GM vehicles; |
| 2 | Ø 50 mm, with flange connection and three guides, for Citroen XM and Xantia vehicles; |
| 3 | Ø 35/42/53 mm, for various vehicles; |
| 4 | Ø 30 mm, with flange connection and two guides, for Alfa Romeo 164 2.0, Saab 9000, Hond Prelude; |
| 5 | Ø 32 mm, with flange connection, two guides, and drive 3/8" DR, for Mazda 323/626, Toyota; |
| 6 | Ø 40 mm, with flange connection and two guides, for VW, Nissan; |
| 7 | Ø 40 mm, with flange connection and two guides, for various european and japan vehicles; |
| 8 | Ø 45 mm, with flange connection and one guides, for GM vehicles; |
| 9 | Ø 52 mm, with flange connection and one guides, for Citroen C5; |
| A | Ø adapter 3/8" DR with flange connection and two guides; |
| E | Ø 40 mm, with flange connection and four guides, for Nissan Maxima; |
| F | Ø 28 mm, with flange connection and two guides, for Opel vehicles; |
| K | Ø 53 mm, with flange connection and three guides, for Citroen CXM L; |
| M | Ø 31 mm, with flange connection and two guides, for Ford Mondeo; |
| N | Ø 30 mm, with flange connection and HEX 12 mm, for Saab/Honda vehicles; |
| Pneumatic drive; | |
| Plastic case. | |

Universal drive for the return of pistons of disc brakes, 3/8"DR

NEW

| Code | Item No. |
|---------|----------|
| 0532360 | ABPT |

Disc brake piston return device

NEW

| Code | Item No. |
|---------|----------|
| 0532350 | ARBCP |

Brake service tool set, 8 pcs.

NEW

| Code | Item No. |
|---------|----------|
| 0532510 | BTS |

Content (8 pcs):
 Universal pliers for disassembly brake springs;
 Device for assembly/disassembly of pressure springs (ø 15.9 mm (5/8") drum brake pads;
 Device for assembly/disassembly of pressure springs (ø 19 mm (3/4") and (ø 20.6 mm (13/16") drum brake pads;
 Device for assembly/disassembly of pressure springs (ø 15.9 mm (5/8") drum brake pads;
 Device for assembly/disassembly of pressure springs (suitable for the braking system of most car brands);
 Three mounting blades for adjusting;
 Plastic case.

Universal pliers for disassembly brake springs;

NEW

| Code | Item No. |
|---------|----------|
| 0532500 | BSCP |

Hook puller for disassembly drum brake springs, headlight adjustment.

NEW

| Code | Item No. |
|---------|----------|
| 0532480 | BSRH |

Device for assembly/disassembly of pressure springs drum brake pads;

NEW

| Code | Item No. |
|---------|----------|
| 0532520 | BRSC |

A set of 5-point sockets and bit sockets for servicing brake mechanisms 1/2"DR, 3 pcs.

NEW

| Code | Item No. |
|---------|----------|
| 0532370 | PBCSS3 |

Content (3 pcs):
 Sockets 5-points, 1/2"DR, 2 pcs: 14, 19 mm;
 Bit socket, 1/2"DR, 10 mm;
 Plastic case.

A set of 5-point sockets and bit sockets for servicing brake mechanisms 1/2"DR, 3 pcs.

NEW

| Code | Item No. |
|---------|----------|
| 0532380 | PBCSS5 |

Content (3 pcs):
 Sockets 5-points, 1/2"DR, 4 pcs: 10, 12.5, 14, 19 mm;
 Bit socket, 1/2"DR, 10 mm;
 Plastic case.

Set of adapters for servicing brake mechanism 3/8"DR, H7, H8, 2 pcs.

NEW

| Code | Item No. |
|---------|----------|
| 0532550 | ASBS78 |

Set of bit sockets for servicing brake mechanism 3/8"DR, H7, H9, 2 pcs.

NEW

| Code | Item No. |
|---------|----------|
| 0532560 | ASBS79 |

Hand use device for brake fluid replacement.

NEW

| Code | Item No. |
|---------|----------|
| 0532420 | BCBS |

Content:
 Device
 Drain reservoir with hose

Manual use device with the help of which work is carried out on pressure testing (pumping) of hydraulic circuits of brake drives, clutch working cylinders and replacement of working fluids.

Device with a pneumatic drive for brake fluid replacement.

NEW

| Code | Item No. |
|---------|----------|
| 0532400 | PBB1 |

Content:
 Reservoir for filling liquid, 1.0 liter;
 Reservoir for draining the waste liquid, assembled with a vacuum gun;
 Transparent hose;
 Adapter, 4 pcs.: 25/32" - 1-7/32" (21-30 mm), 31/32" - 1-1/4" (24-32 mm), 1-3/32" - 1-15/32 (28-37 mm), 1-1/4" - 1-19/32" (32-41 mm).

The device with a pneumatic drive, with the help of which work is carried out on pressure testing (pumping) of hydraulic circuits of brake drives, clutch working cylinders and replacement of working fluids.

Adapter for PBB1

NEW

| Code | Item No. |
|---------|----------|
| 0532410 | PBBAD |

Brake fluid tester

NEW

| Code | Item No. |
|---------|----------|
| 0532430 | BFT |

Vacuum tester for tightness test, set, 19 pcs.

NEW

| Code | Item No. |
|---------|----------|
| 0532530 | VPP |

Content (19 pcs):
 Manual pump with pressure gauge, assembled;
 Reservoir for draining the waste liquid, with a cap;
 Transparent hose, 4 pcs;
 Fittings and adapters, 4 pcs;
 Plastic case.

■ The device is used to test or service various vehicle systems using either a vacuum pump or a pump that builds up overpressure.

Tools for shafting.

Clutch alignment tool, 9 pcs

| Code | Item No. |
|---------|----------|
| 0523140 | ACATS10 |

Content (9 pcs):
 18x11; 18x12; 18x15; 18x17; 18x19; 18x20; 18x21; 18x25; 82x20,5 mm.

Steering tool

Device for dismantling the steering gear

| Code | Item No. | Capture range, mm |
|---------|----------|-------------------|
| 0523300 | AITRD1 | 33-42 |

Eccentric wrench for dismantling the steering gear

| Code | Item No. | Capture range, mm |
|---------|----------|-------------------|
| 0523570 | ATRW24 | 27-42 |

Pitman arm puller

| Code | Item No. | Capture size, mm |
|---------|----------|------------------|
| 0523450 | APAP1 | 33 |

Thread restoration set of the CV-joint axle, 8 pieces

NEW

| Code | Item No. |
|---------|----------|
| 0532170 | CVJRTK |

Content (8 pcs):
 Dies for wrench or socket 1-1/4", 8 pcs.: M24x1.5, M24x2.0, M22x1.0, M22x1.5, M20x1.5, M20x1.25, 13/16"x20 UNEF, 3/4"x20 UNEF;
 Plastic case.

■ The thread restoration set is intended for repairing worn out or damaged threads of the CV-joint axle of motor vehicles..

BODY AIR AND MAINTENANCE TOOL.

Body alignment tools

Battery terminals and wiper arms puller

| Code | Item No. |

Cutting tool

The widest in range tool group, designed to change the shape and size of the workpiece by removing part of the material in the form of cuttings to obtain a finished part or semi-finished product. The cutting tool can be, both manual and machine - for use with the help of mechanization.

TM THORVIK® offers its customers a cutting tool for manual processing of various materials, for example, files, as well as metal twist drills for working with manual mechanized tools and using machine tools.

- DIN** According to DIN standart
- HSS** High-speed steel
- TiN** Coating - Titanium Nitride
- Bronze** Bronze coating
- ALU** Allows to process non-ferrous metals
- PVC** Allows machining plastics
- INOX** Allows to process stainless steels

- HSS Co** High-speed steel with cobalt content
- 118°** The angle at the top of the drill is 118°
- 135°** The angle at the top of the drill is 135°

- Positioning air grinder at the angle of 90°
- Positioning air grinder at the angle less then 90°

FILES AND FILE SETS

The range of TM Thorvik metalwork files are represented by a product line of various profiles and types of notches. High degree of hardening - up to 62 HRC and a stable ratio of tooth height to the notch pitch across the entire working surface provide greater wear resistance of files and allow the use of tools for processing high-hardness materials. Products are equipped with ergonomic two-component handles.

DISKS

Discs are cutting tools based on aluminum oxide (corundum), designed for cutting and grinding work.

Safety instructions when working with disks:

When working, be sure to use eye and hearing protection, a respirator and protective gloves!

Do not use damaged discs during operation.

DRILLS AND DRILL SETS

TM Thorvik twist metal drill are made from high speed tool steel with a high content of alloying elements, which makes it possible to process materials with high hardness. The geometry of sharpening drills makes it possible to process most well-known materials, such as cast iron, carbon and structural steels, stainless and high-temperature alloys, with high efficiency. TM Thorvik twist drills are manufactured according to DIN 338 type N.

Measuring tool

A group of devices and gauges that allow to establish quantitative ratios of any parameters in comparison with a standard is called a measuring tool. These products are mainly used to define geometrical parameters of objects, but can also be associated with the determination of the numerical characteristics of a variety of quantities: mass, induction, spectral.

TM THORVIK® offers its customers products for line and angle measurements such as measuring tape, protractor and torque tools.

TORQUE WRENCHES

Torque wrenches*

| Code | Item No. | Drive size | Working torque, Nm |
|---------|----------|------------|--------------------|
| 0523630 | TW14224 | 1/4" DR | 2-24 |
| 0523640 | TW381911 | 3/8" DR | 19-110 |
| 0523650 | TW122821 | 1/2" DR | 28-210 |

* Wrenches are entered into the Unified State Register of Measuring Instruments (USRS)

Spare parts and repair kits are available for this product:

Torque Wrench Repair Kit for TW14224

Hand Tools!

#thorvik

WWW.SERWO.EU

LIFETIME WARRANTY

All THORVIK hand tools are covered by a lifetime warranty against breakage due to defects in materials or workmanship for the expected life of the tool, except as otherwise specified. If you found any defects in a product, return it to the THORVIK distributor where you purchased it.

EXCLUSIONS

- Adapters
- Ordinary wear and tear of normal using (e.g. bits, drill bits, files, saw blades)
- Worn plastic grips and handles
- Tools showing signs of “hammering” damage, abusing, overloading and incorrect using
- Damage from cutting

LIMITED TIME WARRANTY

THORVIK warrants tools consisting parts designed to wear such as ratchet handles, ratchet wrenches, pneumatic and hydraulic equipment for a period of one (1) year from date of purchase with proof of purchase, applies to these tools.

For many of tools we offer spare parts to maxims lifetime.

Torque wrenches are designed to be re-calibrated after 1,000 cycles or 1 year (whichever comes first).

This warranty does not cover any problems caused by misuse, abuse, neglect, accidents, modification, poor or incorrect maintenance and improper storage of the tools.
