

Let's get in touch!

Who we are and what we do

Serwo Group

Who we are and what we do

Strategic partner for the wholesale and retail trade!

Our **Automotive and Packaging** solutions are designed to meet the highest requirements and are promptly available on all continents. This ensures our clients' supply chains are secured, guaranteeing the success of the Serwo Group.

Whether in the **Automotive Aftermarket** or among users of our high-quality industrial packaging, strong sales partners from **wholesale and specialty trade in over 80 countries worldwide** rely on the wide range of our product assortment and benefit as strategic partners from our global network.

Our products, your success!

Our extensive logistical expertise and in-depth industry knowledge underpins our ability to provide tailored supply solutions to **trade companies worldwide**. With **over 10,000 m²** of warehousing space, we stock a comprehensive range of standard products, ensuring rapid delivery times for our customers.

We continuously refine our product ranges with new ideas and technical innovations. The close dialogue we maintain with our clients, as well as our sophisticated product management, ensures **high quality, maximum efficiency and tailor-made solutions** that optimally support our clients' core business.

EXPERIENCE & INNOVATIONS

ISO-CERTIFIED

GLOBAL NETWORK

Serwo Group

Distributor network

Strong distribution partners in wholesale and specialist trade in more than
80 countries worldwide rely on the wide range of our product range!

Mercedes-Benz

Serwo Group

Our products for your success

Vehicle protective solutions

With our car protection solutions, you can always keep a clean slate. We provide precise protection for all car parts that come into contact with your workshop: for both interior and exterior; for paint and leather; for fabric and plastic. This way, you protect your customer's interior and exterior values, leaving a spotless impression.

Paint shop needs

Precision is key, especially when it comes to painting. Our extensive range of products for the painting industry ensures that only what needs to be colored gets colored. Our selection of various films, papers, and masking tape guarantee precise application. Thanks to our intelligent solutions, you'll even save time. We also provide you with the appropriate personal protective equipment, paint mixing accessories and items for pre- and post-treatment. All of this ensures that your customer relationships remain in top condition.

Tyre trade supplies

Your service also makes the difference. And this is already evident in detail. Disposable tyre bags have become the norm for self-storage customers. That's where our durable quality and appropriate screw bags stand out. An efficient storage management system is necessary when customers entrust you with their tyre storage needs. Our storage labels and tags ensure clear and swift identification of tyres paired with the corresponding vehicle. This guarantees a perfect match and customer satisfaction upon departure from our premises.

Serwo Group

Our products for your success

Protective and hygiene products

Clean, Safe and Carefree! A clean vehicle upon pick-up is crucial. However, oil, grease, dust and tyre marks are unavoidable in the workshop. Despite this, you can still maintain a clean workspace, provided you always have the appropriate cleaning supplies at hand. And if something does get on the vehicle, various cloths can help you achieve spotless customer satisfaction.

Workshop equipment

You are passionate about your work, and we're passionate about optimizing your workflow. That's why we offer intelligent solutions tailored to your workshop's needs. With our help, you'll always have the tools you need at your fingertips, ensuring you work safely, efficiently, and with ease. In other words, you'll save time, money, and stress. This is not an empty promise but proven practice. High customer satisfaction is our hallmark. It's no surprise as we develop all products in close collaboration with our clients.

Workshop organization

Do you enjoy maintaining oversight? Then you will appreciate our solutions for your workshop planning. Our job folders and planning boards simplify the organization of your order processing. Additionally, we offer an efficient vehicle identification and key management system. You'll always have everything under control - and can focus on the essentials.

Serwo Group

Customizable products

You are professionals, we make it visible!!

We offer many of our products **with logo imprints**. By adding your name and symbol, you reinforce your company's **professional image** and not just on the entrance sign, but also on all work equipment.

Strengthen your **customer relationships** with the right promotional items. A small gesture with a big effect: You will remain in your customers' memory!

Do you have a request, idea, or need? Contact us and let's work together to make it happen.
